### Section 4: First Aid Measures

#### **4.1 Description of first aid measures**

- EYE:** : If in eyes, hold eyelids apart and flush continuously with running water. Continue flushing until advised to stop by a Poisons Information Centre, a doctor, or for at least 15 minutes.
- INHALATION:** : If inhaled, remove from contaminated area. Apply artificial respiration if not breathing.
- SKIN:** : If skin or hair contact occurs, remove contaminated clothing and flush skin and hair with running water.
- INGESTION:** : For advice, contact a Poisons Information Centre on 13 11 26 (Australia Wide) or a doctor (at once). If swallowed, do not induce vomiting. Ingestion is considered unlikely due to product form.

**FIRST AID FACILITIES:** : Eye wash facilities and safety shower should be available.

#### **4.2 Most important symptoms and effects, both acute and delayed**

May be harmful if swallowed or in contact with skin. May cause slight skin and eye irritation. This product may have the potential to cause adverse health effects if intentionally misused (e.g. deliberately inhaling contents). Use safe work practices to avoid eye or skin contact and inhalation. Over exposure may result in central nervous system (CNS) effects.

#### **4.3 Immediate medical attention and special treatment needed**

Treat symptomatically.

### Section 5: Fire Fighting Measures

#### **5.1 Extinguishing media**

Dry agent, carbon dioxide or foam. Prevent contamination of drains and waterways.

#### **5.2 Special Hazards arising from the substance or mixture**

Highly flammable aerosol. May evolve toxic gases (carbon oxides, hydrocarbons) when heated to decomposition. Aerosol may explode at temperatures exceeding 50°C. Eliminate all ignition sources including cigarettes, open flames, spark producing switches/tools, heaters, naked lights, pilot lights, mobile phones, etc when handling.

#### **5.3 Advice for firefighters**

Evacuate area and contact emergency services. Toxic gases may be evolved in a fire situation. Remain upwind and notify those downwind of hazard. Wear full protective equipment including Self Contained Breathing Apparatus (SCBA) when combating fire. Use waterfog to cool intact containers and nearby storage areas.
