

IMPERATOR® SMOKE GENERATOR INSECTICIDE Date of Issue: 22 December 2022

1. IDENTIFICATION

Product Identifier: **Imperator® Smoke Generator Insecticide**

Other Means of Identification: None

Recommended Use of the Chemical and Restrictions on Use: Insecticide

Details of Manufacturer or Importer: AgNova Technologies Pty Ltd
Unit 4, 482 Kingsford Smith Drive
Hamilton, Qld 4007 Australia
info@agnova.com.au
(03) 9899 8100
agnova.com.au

Emergency Phone Number: 1800 033 111 (24 hours) IXOM ERS
13 11 26 Poisons Information Centre

Smoke generators are ready to use products contained in a plastic or aluminium container. The following information is intended to give general health and safety guidance on the storage and transport of the product.

2. HAZARD(S) IDENTIFICATION

Classification of the Hazardous Chemical according to GHS:

Signal Word: 'Warning'

Pictograms: Flame over circle, Exclamation mark, Environment

GHS Hazard Class and Category:

Oxidising Solid – Category 3:

Hazard Statement: H272 May intensify fire; oxidiser.

Skin Sensitisation – Category 1:

Hazard Statement: H317 May cause allergic skin reaction.

IMPERATOR® SMOKE GENERATOR INSECTICIDE Date of Issue: 22 December 2022

Hazardous to the Aquatic Environment – Acute Hazard – Category 1:

Hazard Statement: H400 Very toxic to aquatic life.

Hazardous to the Aquatic Environment – Long-term Hazard – Category 1:

Hazard Statement: H410 Very toxic to aquatic life with long-lasting effects.

Precautionary Statements:

Prevention

P210 Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking.

P220 Keep away from clothing and other combustible materials.

P261 Avoid breathing dust /smoke.

P272 Contaminated work clothing should not be allowed out of the workplace.

P273 Avoid release to the environment.

P280 Wear protective gloves/protective clothing/eye protection/face protection.

Response

P302 + P352 IF ON SKIN: Wash with plenty of soap and water.

P306 + P360 IF ON CLOTHING: Rinse immediately contaminated clothing and skin with plenty of water before removing clothes.

P321 Specific treatment (see First Aid section on label).

P333 + P313 If skin irritation or rash occurs: Get medical advice/attention.

P362 + P364 Take off contaminated clothing and wash it before reuse.

P370 + P378 In case of fire: Use foam, water spray, carbon dioxide or sand/earth to extinguish.

P391 Collect spillage.

Storage

No additional statements.

Disposal

P501 Dispose of contents/container to a licensed hazardous-waste disposal contractor or collection site except for empty clean containers which can be disposed of as nonhazardous waste.

Other hazards

Ignites readily. Product burns without a flame to give a dense white harmful smoke.

ADG

Classification:

Classified as "Dangerous Goods" according to the Australian Code for the Transport of Dangerous Goods by Road and Rail.
Dangerous Goods Class 5.1 refer to section 14

SUSMP

Classification:

Schedule 5
(Standard for Uniform Scheduling of Medicines and Poisons)

IMPERATOR® SMOKE GENERATOR INSECTICIDE Date of Issue: 22 December 2022

3. COMPOSITION AND INFORMATION ON INGREDIENTS

Ingredients:	CAS Number:	Concentration (%):
Potassium chlorate	3811-04-9	>1.00-<25.00
Permethrin	52645-53-1	13.50
Other ingredients	(non hazardous)	Balance

4. FIRST AID MEASURES

If poisoning occurs, immediately contact a doctor or Poisons Information Centre (Phone 13 11 26), and follow the advice given. Show this Safety Data Sheet to a doctor.

Description of Necessary First Aid Measures:

General advice: Rescuers should take suitable precautions to avoid becoming casualties themselves.

Inhalation: If breathing is difficult, remove victim to fresh air and keep at rest in a position comfortable for breathing. If unconscious, place person in recovery position. Apply artificial respiration only if patient is not breathing but do not use mouth to mouth resuscitation. Get immediate medical advice/attention.

Skin Contact: Take off contaminated clothing and wash it before reuse. Wash affected area with plenty of soap and water. If skin irritation occurs: Get medical advice/attention.

Eye Contact: If substance has got into eyes, immediately wash out with plenty of water for several minutes. Irrigate eyes thoroughly whilst lifting eyelids. Remove contact lenses, if present and easy to do. Continue rinsing. Get immediate medical advice/attention.

Ingestion: Rinse mouth with water (do not swallow). Give 200–300 mL water to drink. Do NOT induce vomiting. Get medical advice/attention.

First Aid Facilities: Ensure washing facilities are available.

Symptoms Caused by Exposure:

Inhalation:

May cause shortness of breath.

May cause coughing and tightness of chest.

Skin Contact:

May cause redness and irritation.

In cases of severe exposure, blistering of the skin may develop.

Eye Contact:

May cause severe damage with formation of corneal ulcers and permanent impairment of vision. Causes redness and swelling.

IMPERATOR® SMOKE GENERATOR INSECTICIDE Date of Issue: 22 December 2022

Ingestion:

Can form methaemoglobin in the blood, causing cyanosis.
May cause burns to mouth and throat.
May cause stomach pain.
May cause nausea/vomiting.
There may be bleeding from the mouth or nose.

**Medical
Attention and
Special
Treatment:**

Risk of methemoglobinemia. Not to be treated with methylthionine.
Treat symptomatically.

5. FIREFIGHTING MEASURES

**Suitable
Extinguishing
Equipment:**

Sand/earth; foam; water spray; carbon dioxide.
Unsuitable extinguishing media:
Do not use water jets.
Dry agent extinguishers are unsuitable and should not be used.

**Specific
Hazards Arising
from the
Chemical:**

Ignites readily. Contains an oxidising agent; may assist combustion.
May form explosive dust/air mixtures. Gives off irritating or toxic fumes (or gases) in a fire. Decomposition products may include oxygen, ammonium chloride, carbon oxides, nitrogen oxides, ammonia, hydrocyanic acid (HCN).

**Special
Protective
Equipment and
Precautions for
Firefighters:**

Wear self-contained breathing apparatus (SCBA). Wear full protective clothing including chemical protection suit.

**Further
Information:**

Collect contaminated fire extinguishing water separately. This MUST not be discharged into drains. Prevent fire extinguishing water from contaminating surface or ground water.

6. ACCIDENTAL RELEASE MEASURES

**Personal
Precautions,
Protective
Equipment and
Emergency
Procedures:**

No action shall be taken involving any personal risk or without suitable training. Only trained and authorised personnel should carry out emergency response.
Avoid formation of dust. Shut off all ignition sources.
Personal precautions for non-emergency personnel:
Avoid breathing dust/fume/gas/mist/vapours/spray; Avoid contact with skin and eyes; Wear protective clothing as per section 8; Wash thoroughly after handling; Eyewash bottles should be available.
Personal precautions for emergency responders:

IMPERATOR® SMOKE GENERATOR INSECTICIDE Date of Issue: 22 December 2022

Evacuate the area and keep personnel upwind; Wear chemical protection suit; Wear self-contained breathing apparatus (SCBA).

Environmental Precautions:

Avoid release to the environment.
Do not allow to enter public sewers and watercourses.
If contamination of drainage systems or water courses is unavoidable, immediately inform appropriate authorities.

Methods and Materials for Containment and Cleaning Up:

The nature of this product, when contained in commercial packs, makes spillage unlikely.
Do not absorb spillage in sawdust or other combustible material. Avoid formation of dust. Shut off all ignition sources. Take action to prevent static discharges. Do not allow to enter public sewers and watercourses.
Small spills: Wipe up spillage with damp absorbent cloth or towel. Wash spill site with water and detergent.
Large spills: Evacuate the area and keep personnel upwind. Damp down to avoid dust generation. Absorb spillage in earth or sand. Sweep or shovel-up spillage and remove to a safe place. Place in appropriate container. Seal containers and label them. Remove contaminated material to safe location for subsequent disposal. Ventilate the area and wash spill site after material pick-up is complete.

7. HANDLING AND STORAGE

Precautions for Safe Handling:

No specific precautions required when handling unopened packs/containers; follow relevant manual handling advice. Prevent formation of dust. Take precautionary measures against static discharges. Ensure adequate ventilation. In case of inadequate ventilation wear respiratory protection. Avoid contact with skin and eyes. Do not eat, drink or smoke when using this product. Keep away from heat and sources of ignition. Avoid contact with acids and alkalis. Avoid release to the environment. Take off contaminated clothing. Contaminated work clothing should not be allowed out of the workplace and should be laundered before reuse. Eyewash bottles should be available.

Conditions for Safe Storage, including any Incompatibilities:

Store in a cool, dry well-ventilated place. Keep container tightly closed. Keep away from combustible material. Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. Keep out of reach of children.

8. EXPOSURE CONTROLS AND PERSONAL PROTECTION

Exposure Control Measures:

Components	CAS-No.	Control parameters	Update	Basis
Permethrin	52645-53-1	10 mg/m ³ (TWA)		OES BCS*

*OES BCS: Internal Bayer CropScience "Occupational Exposure Standard"

Biological Monitoring:

No data available

Control Banding:

No data available

Engineering Controls:

Engineering controls should be used in preference to personal protective equipment wherever practicable.

Individual Protection Measures, for example, Personal Protective Equipment (PPE):

In normal use and handling conditions please refer to the label and/or leaflet. In all other cases, the following recommendations would apply.

Respiratory protection:

In case of insufficient ventilation, wear suitable respiratory equipment. Where a reusable half mask respirator is required, use a respirator with suitable gas/vapour filter or particle filter. Where a full face mask respirator is required, use a respirator with suitable gas/vapour filter or particle filter.

Skin protection:

Wear suitable protective clothing. Wear protective gloves. The selection of a suitable glove depends on work conditions and whether the product is present on its own or in combination with other substances. Breakthrough time is dependent on the characteristics of the brand of glove used and the supplier should be consulted. PVC or rubber gloves are recommended.

Eye/face protection:

Wear goggles giving complete eye protection.

Hygiene measures:

Contaminated clothing should be laundered before reuse.
Do not eat, drink or smoke when using this product.
Eyewash bottles should be available.

Environmental exposure controls:

Avoid release to the environment. Do not empty into drains.

9. PHYSICAL AND CHEMICAL PROPERTIES

Physical State:	Powder
Colour:	Off-white
Odour:	Odourless
Melting Point:	Not applicable
Boiling Point:	Not applicable
Flash Point:	Does not flash
Autoignition Temperature:	Not available
pH:	Not available
Solubility:	Partly soluble in/with water
Partition Coefficient n-octanol/water:	Not available
Vapour Pressure:	Not available
Density:	Not available
Oxidising properties:	Contains an oxidising agent; may assist combustion.

10. STABILITY AND REACTIVITY

Reactivity:	No hazardous reactions known if used for its intended purpose.
Chemical Stability:	Considered stable under normal conditions.
Possibility of Hazardous Reactions:	Reacts with combustible material. Reacts with acids liberating toxic gas (chlorine).
Conditions to Avoid:	Avoid formation of dust. Keep away from heat and sources of ignition. Keep away from static electricity.
Incompatible Materials:	Store only in the original container. Incompatible with strong acids. Incompatible with alkalis (strong bases). Incompatible with halogenated substances.

IMPERATOR® SMOKE GENERATOR INSECTICIDE Date of Issue: 22 December 2022

**Hazardous
Decomposition
Products:**

No decomposition products expected under normal conditions of use. Decomposition products may include oxygen, ammonium chloride, carbon oxides, nitrogen oxides, ammonia, hydrocyanic acid (HCN).

11. TOXICOLOGICAL INFORMATION

Acute Toxicity:

Based on available data, the classification criteria are not met.

Chemical name	LD50 (oral, rat)	LC50 (inhalation, rat)	LD50 (dermal, rabbit)
Potassium chlorate	500 mg/kg	5 mg/L (4 hr)	NS
Permethrin	554 mg/kg	>4.638 mg/L (4hr)	>2000 mg/kg

Skin Corrosion/Irritation:

Based on available data, the classification criteria are not met.

**Serious Eye Damage/
Irritation:**

Based on available data, the classification criteria are not met.

**Respiratory or Skin
Sensitisation:**

May cause an allergic skin reaction.
Classification based on calculation and concentration thresholds.

Germ Cell Mutagenicity:

Based on available data, the classification criteria are not met.

Carcinogenicity:

Based on available data, the classification criteria are not met.

Reproductive Toxicity:

No evidence of reproductive effects

**Specific Target Organ
Toxicity (STOT) – Single
Exposure:**

Based on available data, the classification criteria are not met.

**Specific Target Organ
Toxicity (STOT) –
Repeated Exposure:**

Based on available data, the classification criteria are not met.

Chemical Name	NOAEL (oral, rat)
Permethrin	8.6 mg/kg bw/day (90 days)

Aspiration Hazard:

Based on available data, the classification criteria are not met.

Symptoms related to Exposure:

Eye Contact:
May cause redness and swelling.

Skin Contact:
May cause redness and irritation.
In cases of severe exposure, blistering of the skin may develop.

Ingestion:
Can form methaemoglobin in the blood, causing cyanosis.
May cause burns to mouth and throat.
May cause stomach pain.
May cause nausea/vomiting.
There may be bleeding from the mouth or nose.

Inhalation:
Causes shortness of breath.
May cause coughing and tightness of chest.

12. ECOLOGICAL INFORMATION

Ecotoxicity:

Toxic to aquatic life with long lasting effects.
Classification based on calculation and concentration thresholds.

Potassium chlorate:
LC50 (fish) 1 g/L (4 days)
EL50 (aquatic invertebrates) 1 g/L (48 hr)
EL50 (aquatic algae) 1.9 - 500 mg/L (72 hr)

Permethrin:
LC50 (fish) 8.9 g/L (4 days)
EL50 (aquatic invertebrates) 0.00127 mg/L (48 hr)
EL50 (aquatic algae) >1.13 mg/L (72 hr)

Persistence and Degradability:

Potassium chlorate: Biodegradable
Permethrin: Not readily biodegradable in water

Bioaccumulative Potential:

Chlorate is converted to chlorite in plants, which accumulates in cells until toxic concentrations are reached, when the plant dies.

Mobility in Soil:

No information available.

Other Adverse Effects:

No information available.

IMPERATOR® SMOKE GENERATOR INSECTICIDE Date of Issue: 22 December 2022

13. DISPOSAL CONSIDERATIONS

Disposal Methods:

Do not discharge into drains or the environment, dispose to an authorised waste collection point. Dispose of product and packaging in accordance with national waste regulations. This material and/or its container must be disposed of as hazardous waste.

14. TRANSPORT INFORMATION

As Imperator is packed in 31 g packs, 12 x 31 g per shipper and 4 x 12 shippers per carton, it is defined as a Dangerous Good in Limited Quantity and is labelled accordingly.

UN Number:	1479
Proper Shipping Name or Technical Name:	OXIDISING SOLID N.O.S (Chlorate potassium)
Transport Hazard Class:	5.1
Packing Group:	III
Environmental Hazards for Transport Purposes:	Yes
Special Precautions for User:	Refer to sections 4 -8
Additional Information:	Limited quantity
Hazchem Code:	1Y

SAFETY DATA SHEET

IMPERATOR® SMOKE GENERATOR INSECTICIDE Date of Issue: 22 December 2022

15. REGULATORY INFORMATION

APVMA: Registered according to the Agricultural and Veterinary Chemicals Act 1994 (Cwlth).
APVMA approval number: 59694

SUSMP: Schedule 5

16. OTHER INFORMATION

Date of Preparation or Revision: 22 December 2022.

Reason for Revision: To comply with GHS 7

Abbreviations and Acronyms:

- APVMA – Australian Pesticides and Veterinary Medicines Authority
- EL – Effective Loading
- GHS – Globally Harmonised System of Classification and Labelling of Chemicals
- LC – Lethal Concentration
- LD – Lethal Dose
- NOAEL – No Observed Adverse Effect Level
- SWA – Safe Work Australia
- SUSMP – Standard for the Uniform Scheduling of Medicines and Poisons
- TWA – Time-Weighted Average

Data sources: Manufacturer and published data.

This SDS summarises our best knowledge of the health and safety hazard information of the product and how to safely handle and use the product in the workplace. Each user should read this SDS and consider the information in the context of how the product will be handled and used in the workplace including in conjunction with other products.

The opinions expressed herein are those of qualified experts with the manufacturer. Since the use of this information and of these opinions and the conditions of use of this product are not within the control of AgNova Technologies Pty Ltd, it is the user's obligation to determine the conditions of safe use of the product.
